SUMMARY

Results-driven and detail-oriented with 1.5 years of experience in cleaning, and visualizing data, building interactive dashboards, data modeling, and transforming business requirements into insightful analytics. Skilled in integrating data from multiple sources, optimizing Power BI performance, Excel, SQL, and automation tools like Power Automate. Adept at turning raw data into meaningful insights. Eager to contribute to data-driven strategies by transforming complex data into actionable insights that drive performance and efficiency.

EXPERIENCE

Smartborn software consulting Services pvt ltd, Bengaluru, India

Aug 2023 - Present

Data Analyst

- Develop, automate, and maintain Power BI dashboards and Excel reports for weekly, monthly, and quarterly performance metrics.
- Collaborate with stakeholders to gather and understand reporting requirements for communication performance and internal operations.
- Utilized DAX, M language, and ETL processes to optimize data modeling and enhance dashboard performance and accuracy.
- Integrated live data from Salesforce into Power BI for Monthly Business Review (MBR) reporting, supporting strategic operations and KPI tracking.
- Used Power Automate for real-time data intake, reducing manual work and improving reporting accuracy.
- Generated metrics reports and KPI insights to support communication planning and strategic initiatives.
- Generated monthly reports using Excel and visualized trends using Power BI for management to providing insights into active and total user trends.

PROJECTS

Salesforce Case Analytics

- Designed and developed an interactive Power BI dashboard using data modeling and real-time analytics for automated case tracking and trend analysis, reducing manual effort by 60%.
- Implemented real-time data refresh and drill-through navigation with Power BI and DAX, enabling faster case insights and improving decision-making efficiency.
- Optimized data extraction and transformation processes with ETL and Salesforce, resulting in 40% faster report generation.

Monthly Business Review (MBR) Dashboard

- Developed a Monthly Business Review (MBR) dashboard using real-time Salesforce data integrated into Power BI for automated, up-to-date reporting.
- Designed a seamless data pipeline to import live case data from Salesforce into Power BI for dynamic reporting and trend analysis.
- Created matrix visualizations (pivot table) to display key performance metrics at the individual and team level, including: Built monthly trend visualizations comparing cases.
- Improved transparency, accountability, and data-driven decision-making across support and operations teams.

Job Family Data Analysis

- Designed and developed an interactive Power BI dashboard using data modeling and real-time analytics for automated casetracking and trend analysis, reducing manual effort by 60%.
- Implemented real-time data refresh and drill-through navigation with Power BI and DAX, enabling faster case insights and improving decision-making efficiency.
- Optimized data extraction and transformation processes with ETL and Salesforce, resulting in 40% faster report generation.

SKILLS

Programming Languages: : Python, SQL, DAX

Databases: : MySQL, PostgreSQL

Analytics & Visualization : Power BI, Excel, Pandas, NumPy, Matplotlib

Data Handling: : ETL, Data Cleaning, Automation, Data Mining, Data Modeling

Tools: : Salesforce, VS Code, Github, Kafka, Grafana, Slack, Power Automate, Jupyter Notebook

Soft Skills: : Problem-solving, Stakeholder Communication, Agile Collaboration, Analytical Thinking, Time Management

CERTIFICATIONS

Data Analysis and Visualization with Power BI, Coursera

Deloitte Data Analytics Job Simulation, Forage

EDUCATION

Visvesvaraya Technological University, Belagavi, India - Bachelor of Engineering,
